

Breaking Bread

About Breaking Bread

It is a student project on collecting memories and stories about/around/related to BREAD. Seven Master students of the University Lumière Lyon 2 in France and the University of Arts in Serbia built this idea with the aim to gather different bread stories from different people across the borders and showcase the diversity, provide an opportunity for everyone to speak up and share their memorable and personal stories involving bread, which could carry good or bad memories and raise various issues.

Tell us your Bread Story

- Google Form
- Audio/Video testimony
-  @breakingbread2022
