FILM ENGISE

As many others fields in our society, music is ruled by the well known image of the white straight cis-gender men.

Would it be possible to build a welcoming space for FLINTA* music technicians, artists, writers and workers in general?

PINKnoise is a platform made by and for the FLINTA* music community.

By reading and mostly talking to the ones that are already thinking and acting in favor of non-hierarchical music environments, we aim to connect FLINTA* people from different cultural backgrounds and help to build the space we want to be in: a room where every sound has space to resonate.
